Module 1 Cheat Sheet: Introduction to Server-Side JavaScript

Package/Method	Description	Code Example
	http package is used for establishing remote connections to a server or to create a server which listens to client. **createServer** - Takes a requestListener,	

```
1  const http = require('http');
2  const requestListener = function(req, res) {
3    res.writeHead(200);
4    res.end('Hello, World!');
```
